Cremation Basics

The Cremation Basics includes the minimal supervision and co-ordination of the services required for a simple direct burial/cremation. Included are items such as minimal arrangements with a Funeral Director, local transfer of deceased from place of death during business hours and requiring one staff person, removal of jewelry (if requested) and temporary shelter of deceased. Automotive equipment supplied includes a transfer vehicle that is used during the removal and also to transfer to the crematorium/cemetery. We require identification prior to final disposition. This is a brief period for one or two family members.

When budgeting it is important to consider all components. Cash disbursements are charges that are added to the contract alleviating a family from having to pay numerous organizations at the time of need. To help ease a difficult time the transfer company will pay all outside costs up front. Below is a list of possible disbursements that may be applicable:

- Coroners Certificate
- City of London Death Registration
- Newspaper Publications
